Dear Sirs,

I am writing in strong support of renewal of North Anna Reactors Environmental Impact Statement supporting a 20 year plant extension. The North Anna Plant has an outstanding environmental record relating to Lake Anna, one of the most beautiful and used recreational lakes in Virginia. Also the environmental advantages of carbon-free nuclear power are obvious and need to be continued and added on to wherever possible for a cleaner environment and for energy self-sufficiency which keeps us all safe and prosperous.

Sincerely,

Phil Carlson MD
