TRAINING: Training specific to the decommissioning inspection program will be conducted in January 2023.

REMARKS: IMC 2602, "Decommissioning Fuel Cycle, Uranium Recovery, and Materials Inspection Program." This document was revised to incorporate risk-informed performance-based program and include pandemic planning. Due to the scope of the changes to the IMC it was reissued rather than issued with redline changes.

IP 83822, "Radiation Protection." Updated to reflect a more risk-informed performance-based approach and to incorporate current health physics practices.

IP 83890, "Closeout Inspection and Survey." Revised to incorporate risk-informed, performance-based inspections; also includes updated guidance documents.

IP 84900, "Low-Level Radioactive Waste Storage." Clarified objectives. Added applicability to Program 2602. Replaced references to Increased Control Order and Fingerprinting and Criminal History Order with 10 CFR Part 37. Added reference to subsurface surveys (2011 Decommissioning Planning Rule).

IP 87104, "Decommissioning Inspection Procedure for Materials Licensees."
Revised to reflect performance-based, risk informed inspection philosophy.
Reissued in its entirety due to substantial changes.

IP 87300, "Groundwater Monitoring and Remediation at Decommissioning Fuel
Cycle and Complex Materials Facilities." Initial issuance.

IP 87305, "Decommissioning Management Organization and Controls." Initial
Issuance.

IP 87654, "Uranium Mill, In-Situ Recovery, and 11e.(2) Byproduct Material
Disposal Site Decommissioning Inspection." Revised to reflect performance-
based, risk-informed inspection philosophy. Reissued in its entirety due to
substantial changes.

IP 88104, "Decommissioning Inspection Procedure for Fuel Cycle Facilities."
Revised to reflect risk-informed, performance-based inspection philosophy.
Reissued in its entirety due to substantial changes.

IP 89060, "Department of Energy Observational Site Visits." Initial issuance.
