Dear Ms. Hanson,

Per Dr. John Greer, MD Vice President, I have been requested to apply for an amendment to our current NRC License No. 11-35315-01 to include Lutetium 177 in the form of PLUVICTO.

Our current license is exclusively for Radium 223 in the maximum amount of 100 microcuries and because the current prescribed dosage of PLUVICTO is 200 millicuries per treatment we are requesting a maximum amount of 1.0 Curie in possession.

As per our current license we will adhere to provisions stated on that license and adhere to best practices.

Sincerely,

Kenneth M Nute RSO
