**SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR EUROFINS  
SCIENTIFIC, NRC LICENSE NO. 24-35149-01**

Dear Mr. Varley:

In letters dated September 26, 2022, and October 24, 2022, Eurofins Scientific notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 24-35149-01. Your letters are available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession Nos. ML22290A054 and ML22298A072, respectively.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

The NRC staff has reviewed your final status surveys. Based on its review, the NRC staff has concluded that all licensable radioactive material has been removed from the facility located at 15 Research Park Dr., St. Charles, MO, 63304 and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facilities are suitable for unrestricted use, and NRC Materials License No. 24-35149-01 is hereby terminated. (See Enclosure for the amended license stating that the license is terminated.)

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.
