SUBJECT: ADVANCED INSPECTION TECHNOLOGIES, INC., NRC INSPECTION
REPORT 150-00035/2020-002, INVESTIGATION REPORT 4-2021-005, AND
CIVIL PENALTY ASSESSMENT

Dear Sharon Busby:

On August 30, 2021, the U.S. Nuclear Regulatory Commission (NRC) Office of Investigations completed an investigation of Advanced Inspection Technologies, Inc., (AIT) in Tulsa, Oklahoma. The investigation was conducted to determine whether AIT employees willfully conducted licensed activities in NRC jurisdiction without filing for reciprocity. The NRC's investigation results were discussed with you during a telephone conversation on February 2, 2022. A factual summary of the investigation was issued as an enclosure to our letter dated February 15, 2022, Agencywide Documents Access and Management System (ADAMS) Accession No. ML22040A362.

In the February 15, 2022, letter transmitting the inspection report, we informed you that two apparent violations were being considered for escalated enforcement action. In a letter dated March 8, 2022 (ML22112A253), you provided your response to the apparent violations.

Based on the information acquired during the investigation, the in-office review by the inspection staff, and the information that you provided in your written response to the inspection report, the NRC determined that two violations of NRC requirements occurred. In a letter dated June 14, 2022 (ML22153A471), the NRC issued a notice of violation and proposed imposition of a civil penalty of \$8,000.

Subsequent to the issuance of the June 14, 2022, letter, the NRC became aware that you transferred all the regulated material under your license to another licensee on or about July 7, 2022, and that the Oklahoma Department of Environmental Quality terminated your license effective September 22, 2022. Since you failed to pay the proposed civil penalty, the NRC normally considers the need to issue an order to impose the civil penalty. However, considering that you transferred all of your regulated material to another licensee and your license has been terminated, the NRC will not impose the civil penalty amount of \$8,000. In addition, the NRC will no longer pursue payment of the civil penalty invoice in Enclosure 2 of the June 14, 2022, letter and has revised the invoice balance to zero dollars.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room and from the NRC's ADAMS, accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning this matter, please contact Jeremy Groom of my staff, at 817-200-1182.

Sincerely,

Signed by Morris, Scott
