Re: License Number: SNM-95; Docket Number: 070-113

Subj: Decommissioning Funding Plan for Penn State University

Dear Mr. Jervey;

Enclosed please find the revised decommissioning funding plan (DFP) for The Pennsylvania State University as required by 10 CFR 30.35.(e). Consistent with the information provided in years past, the University has created a unified DFP covering all relevant radioactive material licenses and operating locations. The unified DFP is documented within six (6) stand-alone, self-contained enclosures, one for each license held and an additional enclosure summarizing the unified DFP submittal.

License Number	Issuing Agency	Brief Description and Campus Location	Enclosure
--	--	Executive Summary of Unified DFP	1
PA-0100	PA DEP	Broad scope byproduct materials, UP & others	2
PA-0127	PA DEP	Broad scope byproduct materials, PSHMC campus	3
PA-0127A	PA DEP	Self-shielded irradiator license, PSHMC campus	4
SNM-95	NRC	Special Nuclear Materials, UP campus	5
R-2	NRC	Research and Test Reactor license, UP campus	6

Note that only Enclosure 1 and Enclosure 5 accompany this letter. The DFP for the other University license issued by the NRC is being submitted under separate cover letter to the cognizant project manager.

Please note that two versions of Enclosure 1 are provided with this letter. Enclosure 1R is a redacted version of Enclosure 1. Enclosure 1R is intended to be suitable for public release, unlike Enclosure 1 which contains Security Related Information- Official Use Only. Similarly, two versions of Enclosure 5 are included with this package – a redacted version (Enclosure 5R) and an unredacted version (Enclosure 5).
