Good morning, Shawn

There is no problem. No patient information has been sent in any of our emails.

No HIPAA related information had been sent.

Thank you!

Jose,

Good morning. I am putting this email thread into our public document system and had a question come up regarding the "confidentiality" statement at the end of your emails. Can you please confirm, that there is no HIPAA related info in any of our transmissions so we can place into our ADAMS system as public? Thank you.

Good morning, Shawn

Mrs. Rodriguez doesn't work with us any longer, so I will be (by now) fully in charge of the imaging department, including Nuclear Medicine.

Right now, we paid for a full license until March 2023. So, I believe (until March) we can do that procedure. After March, is when the new limited license will be in place

Or am I wrong?

Thank you

Good Morning Maria:

If you intend to continue with the lymphoscintigraphy activities, then technically you can't go into a stand-by status at this time.

Please submit a letter signed by Lcdo Rodriguez requesting to withdraw the request to go into a standby status.

Let me know if you have any further questions.

Hi Shawn:

I talked to Lcdo Rodríguez and he told me that our intentions is to continue with those activities. When we talked to the person in accounting, she told us that even we summit the documentation it would no be in effect until April 2023; so I hoped that before that time we can acquire the dose calibrator and began to use the Nuclear Medicine Equipment.

If you need any other assistance I would appreciate that you contact Lcdo José Luis Rodríguez at 787-727-1000 ext. 4141 or send an e-mail to his assistant Ms. Johanna Noa jnoa@sanjorgepr.com .

Thanks very much

Jossie,

We have received your amendment request to move your license into a stand-by status until such time as you decide to start nuclear medicine activities again. You stated in your letter that you have ceased ALL activities under the license. During the last inspection, it was noted that you were performing lymphoscintigraphy activities. Do you intend to stop those activities as well?

Thank you.

Good Morning Mr. Seeley

First, we appreciate all the work that you did for getting the information. I'm going to be on vacation from august 14 to august 22, so before I go, I have some questions to begin working with the "Possession only-Standby License".

1. What document we need to fill out so we make the change of the license.
2. We send the payment with the document? t.
3. Can we make the request on line?
4. At this moment we made a partial payment of $4,100 to the regular licensing. Does this amount can be credited to the $9,900 or do we need to pay the whole amount?

Thanks very much for the information

Subject: NRC fees & License amendment

Mr. Rodriguez,

I promised you some information regarding your license and an option for your current situation. It appears you are in a holding pattern until you can find a nuclear medicine technologist and get your equipment repaired. Therefore, it makes sense to move into a "Possession only-Standby License" until such time as you can get back up and running. The annual fee for this is currently $9,900.00, which is less than what you are currently being charged.

In order to make this change, please submit an amendment request with the following information:

1. Please request to move to a "possession only – standby" program code.
2. Please identify all licensed material to be placed in storage. For each sealed source or device containing a sealed source, identify (if possible) the source and device by manufacturer, model number, serial number, isotope, activity, date of assay, and date of last leak test.
3. Please include a clear commitment not to use the licensed material for any purpose, pending disposal or authorization to restart (as applicable).
4. Please include a physical description of the facilities where the material will be stored if it is different from storage facilities already approved in the license. Any planned facility changes have been identified, and provisions to maintain exposures as low as reasonably achievable are adequate.

5. Please identify the individual who will be responsible for maintaining control of the licensed material while it is in storage. The individual's training and experience, as described in the individual's resume, are adequate. The necessary qualifications will vary depending on the material being stored. In general, the responsible individual should have a working knowledge of basic radiation safety practices and the regulatory requirements associated with the material being stored.
6. Please include an acceptable accountability program for assuring that the licensed material remains in secure storage and is not used (inventoried at least annually). The program provides reasonable assurance that the licensee will maintain security.
7. Please include all planned changes to limit/decrease the licensee's radiation safety program, as a result of placing the licensed material in storage. These changes may include, but are not limited to, the following:

a. Dosimetry services
b. Worker training programs
c. Instrument calibration services
d. Inventories
e. Internal audits
f. Maintenance and visual inspection of equipment and facilities
g. Maintenance of records

8. Please include, if applicable, a commitment to leak test sealed sources and devices containing sealed sources at least once every 10 years and within 6 months before use or transfer to an authorized recipient.

I am on a rotation until November 19, 2022. I have copied Ms. Jan Nguyen on this email as she will be the one who can help you if you have additional questions. I will still answer your questions if you contact me, but wanted you to realize there may be a delay in getting back to you.

Hope all else is well.

Let us know if you have any questions.

Good Afternoon Jose,

Thanks for taking the time to speak with me last Thursday. As discussed, the Small Entity form request received will be disregarded due to ineligibility.

Invoice, LFB 22-2243, is due in full amount in addition to the interest, penalty and admin charges accrued so far. As of today, $4900.00 has been paid towards the invoice leaving the outstanding balance owed as $11,942.00: $11,900.00 (principal) and $42.00 (Interest, penalty and admin charges). Attached are a copy of the invoice (the copy of the invoice shows only the total principal amount and does not include payments applied, interest, admin charges and penalty amounts), and eBilling sign-up information. Please note that interest, admin charges and penalty fees will continue to accrue until invoice is paid in full.

Also, you mentioned that you have licensing questions, please feel free to reach out to Shawn Seely, included is Shawn Seely's email address (Shawn.Seeley@nrc.gov) on this email for reference.

If you have questions related to the attached invoices or the license fees, please contact me (Fees_regions@nrc.gov) or the License Fee Help Desk at 301-415-7554. Below, please find helpful links related to payment methods.

Acceptable Payment Methods - https://www.nrc.gov/docs/ML1916/ML19163A244.pdf

Authorization for Payment by Credit Card - https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf

Subject: RE: RE: NRC fees

Good Afternoon Jose,

I called the office today to check if there is any status update but I learned that you are out of the office this week so I hope you are enjoying your time off!

I spoke to Shawn regarding the program code that is currently assigned to license 52-25379-01, docket 3034319 and I was advised that this is the correct program code to be used.
At this point, the invoice, LFB 22-2243, is due in full amount in addition to the interest, penalty and admin charges accrued so far. Attached are a copy of the invoice (the copy of the invoice shows only principal amount and does not include interest, admin charges and penalty amounts), Small Entity Certification Form and eBilling sign-up information. Please note that interest, admin charges and penalty fees will continue to accrue until invoice is paid in full.

Please let me know if you have any questions or additional assistance is needed.

Thanks,
Nadine

Subject: RE: RE: NRC fees

Good Afternoon Jose,

Thank you for taking the time to speak with me today. As discussed during our conversation, please find copies of the work paper for the FY 2021 and FY 2022 Final Fee Rule attached. These documents can be found on NRC public site as well.

Also, attached is the Small Entity Certification form, NRC Form 526. Please review to determine if you qualify. If you think you qualify, the form should be filled out completely and sent to SmallEntity Resource Team at SmallEntity.Resource@nrc.gov after making a payment of at least the small entity fee tier amount that you think you qualify for. After payment and complete Small Entity Certification form are received, the Small Entity Team will review the request for invoice LFB 22-2243 to determine if you qualify. If approved, the invoice will be closed under the Small Entity fee applied for. If denied, you will be responsible for the total invoice amount including Interest, penalty and admin charges accrued at that time.

Regarding whether the program code 02120 that is currently listed under license 52-25379-01, docket 3034319, is the correct program code being used, I would defer your question to Region I Licensing Team.

@Seeley, Shawn – Please can you advise who Jose can reach out to in Region I to discuss the

program code listed under his license?

Lastly, I would like to inform you of our eBilling system. eBilling is a complementary web-based application available for use by our Licensees and provides immediate delivery of NRC invoices, customizable email notifications, the capability to view and analyze invoice details, and the convenience to access Treasury systems to pay invoices. Please see the attached brochure which contains sign-up instructions along with eBilling screenshots and available functionality.

You can also find the eBilling brochure on the NRC's public webpage (www.nrc.gov) by selecting the "eBilling" icon on the right side of the page.

Hope this helps and please feel free to contact us if you have further questions.

Thanks,
Nadine

Thank you Nadine

Can you call me? It is a little bit confusing how to calculate our fees per the Federal Register. I really don t understand how you calculate our fees.

Question: the dollar number for small companies is based on only nuclear volume or it is the total volume of the hospital?

Thank you!

Subject: RE: NRC fees

Good Morning Jose,

Thank you for reaching out to the U.S. Nuclear Regulatory Commission (NRC) regarding 2022 NRC fees. I apologize for missing your call yesterday. If preferred, I can call you back at 12 pm EST today. Currently program code 02120 which is under fee category 7C is assigned to Docket 03034319/License Number 52-25379-01. Per § 171.16 of Title 10 of the Code of Federal Regulations (10 CFR), the annual fee for fee category 7C is $16,800.

The NRC license fees are assessed and can **change from year-to-year**. The annual fees are published as a Proposed and Final Rulemaking in the *Federal Register* each year. The public can review and comment on proposed fees before they are published as final and become effective. The annual fees are published in our regulations at § 171.16 of Title 10 of the Code of Federal Regulations (10 CFR).

Hope this helps and please let me know if additional assistance is needed.

Thanks,
Nadine

Subject: [External_Sender] NRC fees

Good morning, Nadine

We write you regarding the 2022 NRC fees for our facility, San Jorge Children & Women's Hospital (SCWH). Docket number 03034319.

This year's fees are $16,800. We believe that amount was based on past volume we used to have. Since the pandemic started, the nuclear medicine department have been providing very limited services. Due to our decrease in volume, we would like you to recalculate our new fees based on actual volume. We should be now in the lowest tier, meaning a lower fee.

I can be reached at 787-727-1000 ext. 4141 or 787-727-0940.

Thank you for the attention to this matter.

NOTA DE CONFIDENCIALIDAD: Este mensaje incluyendo cualquier anejo es para uso exclusivo del (los) destinatario (s) y puede incluir informacion confidencial y/o informacion de salud protegida. La Ley Federal (HIPAA) establece que el destinatario esta obligado a mantener la informacion confidencial y segura. HIPAA prohíbe y castiga cualquier divulgacion a terceras personas sin autorizacion del afiliado o permitido por ley. Si usted no es el destinatario, redirija este mensaje al remitente, y destruya cualquier copia existente del mensaje original.

CONFIDENTIALITY NOTICE: This e-mail message, including attachments, is for the sole use of the intended recipient(s) and may contain confidential and/or protected health information. Under the Federal Law (HIPAA), the intended recipient is obligated to keep this information secure and confidential. Any disclosure to third parties without authorization from the member or as permitted by law is prohibited and punishable under Federal Law. If you are not the intended recipient, please contact the sender by reply e-mail and destroy all copies of the original message.
