Subject: [External_Sender] ECAN's hearing petition
Date: Friday, January 20, 2023 7:19:38 PM

I am writing in reference to the plans NFS in Erwin has to seek a license to produce purified bomb grade uranium for nuclear weapons.

A facility of this kind does not belong in Erwin or anywhere for that matter but should definitely not be handled by NFS.

NFS has had it's problems in the past with safety issues and I do not think they are capable of operating a facility such as this in a safe manner.

I feel strongly that the Erwin Citizens Awareness Network's request for a hearing on the subject should be granted.
