Subject: [External_Sender] RE: Docket ID NRC-2020-0018, NUREG 2212, Standard Review Plan for Applications for 10 CFR part 70 Licenses for Possession and Use of Special Nuclear Materials of Critical Mass but not Subject to the Requirements in 10 CFR part 70, sub...
Date: Tuesday, January 17, 2023 10:14:20 AM

Mr. Siurano-Perez,

As discussed below I would like to request that the NRC extend the comment period for review of subject NUREG, Docket ID NRC-2020-0018. I am requesting that you extend the review period to March 31, 2023. This will allow a thorough review of the proposed NUREG as well as consideration of the relevant references which include NUREG-1520, "Standard Review Plan (SRP) for Fuel Cycle Facilities License Applications," NUREG-1556, Volume 17, Revision 1, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Special Nuclear Material of Less Than Critical Mass Licenses," and Regulatory Guide 3.71, Revision 3, "Nuclear Criticality Safety Standards for Nuclear Materials Outside Reactor Cores."

Thank-you for your consideration of our request.

Subject: [Non-DoD Source] RE: NUREG 2212

Hi, Tim!

You will need to submit a formal request to me via email or letter (your

preference). Make sure there is nothing sensitive in it since we need to make it public.

Please reference Docket ID NRC-2020-0018 in your submittal and the title of the document for comment (i.e., "Standard Review Plan for Applications for 10 CFR part 70 Licenses for Possession and Use of Special Nuclear Materials of Critical Mass but not Subject to the Requirements in 10 CFR part 70, subpart H." Include a justification and a reasonable amount of extra days you need. We will process it and act accordingly.

Please let me know if you have any other questions.

Osiris

Subject: [External_Sender] NUREG 2212

Sir,

What communication is necessary to request an extension to the comment period for review of NUREG 2212, Docket ID NRC-2020-0018?
