SUBJECT: QUALITY ASSURANCE PROGRAM APPROVAL FOR RADIOACTIVE MATERIAL
PACKAGES NO. 71-0958, REVISION 2

Dear Sherry Davis:

Enclosed is the revised Form 311, "Quality Assurance Program (QAP) Approval for Radioactive Material Packages" No. 71-0958, Revision No. 2 (Approval), in response to your request for a revision to your QAP dated April 12, 2022 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML23004A216). The U.S. Nuclear Regulatory Commission (NRC) sent a request for additional information dated on October 7, 2022 (ADAMS Accession No. ML22263A471). Defense Threat Reduction Agency provided a response to NRC's request for additional information dated December 12, 2022 (ADAMS Accession No. ML23005A119) to support the review of your submittal.

The enclosed Form 311 documents the staff approval of your revised QAP to satisfy the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 71.17(b) and 71.101(c).

Termination of your materials license does not cause this approval to be automatically terminated. If you wish to amend this approval and have determined it reduces commitment, or would like to terminate this approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved package, you must be registered for use of that package with the NRC. Registration for use of NRC-approved packages should be made pursuant to 10 CFR 71.17(c)(3).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at Aida.Rivera-Varona@nrc.gov or Tomeka Terry at Tomeka.Terry@nrc.gov.

Sincerely,

Signed by Rivera-Varona, Aida
on 02/07/23

Aida Rivera-Varona, Chief
Inspection and Oversight Branch
Division of Fuel Management
Office of Nuclear Material Safety
and Safeguards
