Honorable ASLB Panel Chair & NRC Rulemaking & Adjudications Staff:

Thank you for your January 23, 2023 MEMORANDUM. I am submitting a limited appearance statement in order to make the Atomic Safety and Licensing Board aware of my concerns at issue in the subject proceeding.

I am very concerned that if this proposal is approved, the project may further pollute the Nolichucky River, which NFS has already contaminated with nuclear waste for 95 miles downstream of Erwin, Tennessee. How can this company be allowed to create further risks to this environment without a complete assessment of its environmental contamination in our area? Hold NFS accountable before any new work is allowed, please!
