Subject: Request additional information for NRC License No. 13-15882-01 for The Community Hospital
Date: Friday, January 20, 2023 12:04:00 PM

Dear Stantosh Kar:

We have reviewed the license amendment request dated December 2, 2022, for NRC License No. 13-15882-01. Based on the review, we will need additional information.

1. Provide name of the manufacturer/vendor who will install the new HDR unit.
2. If there will be changes to the facility where the HDR is located, please describe.
3. If there will be changes for emergency equipment and procedures which are required by 10 CFR 35.610, please provide the description of the changes and a copy of the revision.

Please note that we will keep the old HDR in the license until it is properly removed from your facility and an amendment requesting to delete it received by our office. In addition, we will limit the quantity of the licensed material in the area where the HDR is located below the threshold for implementing the requirements in 10 CFR part 37.

To continue the review of your application, we request that you submit your response under a dated and signed cover letter by February 20, 2023. In the cover letter, please reference Mail Control No. 633808. We will assume that you do not wish to further pursue this licensing action if we do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank Tran
