*Note this is a correction to a previously provided email:*

Niki

I am happy to hear that we have answered all your questions (as you stated in your email dated December 30 below). We anticipate completing both the environmental and safety reviews for the construction permit sometime this fiscal year. We have received confirmation of the SHPO's concurrence of our finding of no adverse effects to cultural resources from the project.

May I have confirmation that you concur with our findings of no adverse effects to cultural resources? I will be happy to discuss this with you at your earliest convenience, if you have additional questions.

Thanks.  
Tami

**This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.**

Niki

Hi. Just a friendly reminder that the comment period for the DEIS for the Kairos Hermes test reactor in Oak Ridge, TN has closed as of 6 December. We are hoping to hear from you to confirm that we adequately addressed your concerns in your letter to us of April 2022. Feel free to contact me with any questions.

Thanks.  
Tami
