

In the Matter of:	§	
	§	
VISTRA OPERATIONS COMPANY, LLC	§	
	§	DOCKET NOS. 50-445 and
	§	50-446
COMANCHE PEAK NUCLEAR POWER	§	NRC-2022-0183
PLANT, UNITS 1 AND 2	§	
	§	
RE: License Renewal Application	§	
For Facility Operating License Nos.	§	
NPF-87 AND NPF-89	§	

1. My name is Lon Burnam. I served 18 years as the Texas State Representative for District 90 in Ft. Worth. I am a founding board member for Citizens for Fair Utility Regulation (CFUR), a group formed in 1978. CFUR is a group of civically minded volunteers who care about the environment, public health and affordable energy. I am at least 18 years of age and of sound mind. I would like to be represented by Citizens for Fair Utility Regulation and agree for my declaration to be included in this proceeding.
2. I live at 2103 Sixth Avenue, Ft. Worth, Texas 76110, which is 38 miles as the crow flies from the Comanche Peak Nuclear Power Plant. I oppose extending the license agreement for Comanche Peak for an additional 20 years.
3. I have concerns about the potential health, safety, security, and financial impacts of operating Comanche Peak Nuclear Power Plant for another 20 years. I have concerns about the seismic impacts of earthquakes on aging nuclear reactors., There are numerous injection wells in the region. I'm also concerned about releases of tritium and other radionuclides to air and water, and the potential risks to humans, farm animals, wildlife and vegetation. I am also concerned about embrittlement and metal fatigue impacting the safety of aging nuclear reactors and the availability of adequate cooling water for safe operation as climate change brings hotter temperatures and drought conditions.
4. Please extend the deadline for a petition to intervene.

5. Further Declarant saith not.

I hereby declare under penalty of perjury that the foregoing facts are true and correct and that any expression of opinion are based on my judgment.
