NRC-2022-0183

**DECLARATION OF JANET MATTERN
IN SUPPORT OF LEAVE TO INTERVENE IN COMANCHE PEAK NUCLEAR
POWER PLANT, UNITS 1 AND 2 LICENCE RENEWAL APPLICATION
PROCEEDING**

1. My name is Janet Mattern. I live at 6662 St. Andrews Rd., Fort Worth, TX 76132. I am at least 18 years of age and of sound mind. I am a member of Citizens for Fair Utility Regulation and agree for my declaration to be included in this proceeding.
2. I live in southwest Fort Worth, about 30 miles from the Comanche Peak nuclear power plant. I oppose extending the license agreement for 20 more years of operation of this facility. Residents in the impacted area are not aware of this request for an extension, and their voices should be heard.
3. My opposition is based on the cost to the public and the risk of a potential calamitous event, increased due to the physical aging, increased seismic activity, population increase and water availability concerns due to climate change.
4. I am also concerned about increased high-level radioactive waste stored on-site and the regulatory agencies' consistent inability to accurately assess this risk to public safety. Global militarism and terrorism threats are also concerns that should be considered.
5. Further Declarant saith not.

I hereby declare under penalty of perjury that the foregoing facts are true and correct and that any expression of opinion are based on my judgment.
