Good afternoon,

The Petition Review Board (PRB) has completed its evaluation of the petition submitted October 4, 2022, as supplemented on 12/14/2022, related to concrete structural degradation at Seabrook Station, Unit No. 1 (Seabrook). The PRB has determined that the petition, as supplemented, does not meet the criteria for acceptance as defined in NRC Management 8.11, "Review Process for 10 CFR 2.206 Petitions." A letter detailing the PRBs determination will be transmitted to you shortly.

Thanks,
