ADAMS Accession No. ML23024A266

Dear Ms. Chen:

By letter dated February 10, 2023 [1], NRC staff documented requests for supplemental information (RSIs) that are required to begin the detailed review of Amendment 19. Holtec understands that supplemental information is needed, and this letter provides responses in regards to those requests.

Attachment 1 contains Holtec's response in regards to the initial RSI and observations provided by the NRC. Attachment 2 contains an updated Reorganization Matrix. Attachment 3 contains the changed pages to the proposed reorganization of the CoC. Attachment 8 contains the changed pages to the Evaluation Forms for the CoC. Attachment 4 and 5 contain the changed pages to the proposed reorganization of Appendix B and D. Attachments 6 and 7 contain the changed pages to the proposed Appendix A-100U and Appendix B-100U respectively. Attachments 9-12 contain the changed pages to the Evaluation Forms for Appendixes A through D, respectively. By responding to these requests from the NRC, this prevents the creation of a regulatory void allowing Holtec to meet regulations established by the NRC.
