Subject: Request for an Extension of Comment Period on Draft Regulatory Guide, DG-5065, "Perimeter Intrusion Alarm Systems," Docket ID NRC-2022-0157

Project Number: 689

Dear Program Management, Announcements and Editing Staff:

The Nuclear Energy Institute (NEI)¹, on behalf of its members, appreciates the opportunity to review and provide comments on Draft Regulatory Guide, DG-5065, "Perimeter Intrusion Alarm Systems," proposed revision 4 to Regulatory Guide 5.44.

In a Federal Register Notice (88 FR 10481) dated February 21, 2023, the U.S. Nuclear Regulatory Commission requested that stakeholder comments be submitted by March 23, 2023. NEI requests an extension of the comment period of sixty (60) days to May 22, 2023. This extension will permit adequate stakeholder engagement on this important topic and will allow members currently engaged in spring refueling outages an opportunity to review and comment. Further, NEI requests that the NRC schedule a public meeting to review the proposed changes.

If you have questions or require additional information, please contact me at (202) 285-2085, or ajc@nei.org.

Sincerely,

A handwritten signature in black ink, appearing to read "aj. Cl", is written over a horizontal line.

AJ Clore

¹ The Nuclear Energy Institute (NEI) is responsible for establishing unified policy on behalf of its members relating to matters affecting the nuclear energy industry, including the regulatory aspects of generic operational and technical issues. NEI's members include entities licensed to operate commercial nuclear power plants in the United States, nuclear plant designers, major architect and engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations involved in the nuclear energy industry.
