

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 5, 2023

Daniel G. Stoddard
Senior Vice President and
Chief Nuclear Officer
Innsbrook Technical Center
5000 Dominion Blvd
Glen Allen, VA 23060-6711

SUBJECT: REVISION OF SCHEDULE FOR THE ENVIRONMENTAL REVIEW OF THE NORTH ANNA POWER STATION, UNITS 1 AND 2, SUBSEQUENT LICENSE RENEWAL APPLICATION (EPID NUMBER: L-2020-SLE-0000) (DOCKET NUMBERS: 50-338 AND 50-339)

Dear Daniel Stoddard:

By letters dated August 24, 2020, (Agencywide Documents Access and Management System ML20246G703), Dominion Energy submitted an application for subsequent license renewal of Renewed Facility Operating License Nos. NPF-4 and NPF-7 for the North Anna Power Station, Unit Nos. 1 and 2 (North Anna) to the U.S. Nuclear Regulatory Commission (NRC) pursuant to section 103 of the Atomic Energy Act of 1954, as amended, and part 54 of title 10 of the *Code of Federal Regulations*, "Requirements for renewal of operating licenses for nuclear power plants." This letter is to inform you about a schedule change in the North Anna license renewal review.

In March 2023, the NRC staff completed its environmental audit of the application as scheduled. However, because of impacts of multiple unplanned license renewal and subsequent license renewal applications currently being reviewed and anticipated to be reviewed in the next two years, the NRC is revising the schedule for the issuance of the final site-specific environmental impact statement (EIS) for North Anna to July 2024. This change of the final EIS issuance allows the needed time for the staff to adjust for the overlapping of multiple ongoing and future projects. Specifically, this lengthens the time between the issuance of the North Anna draft site-specific EIS and the final EIS, consistent with normal EIS development schedules.

This revision of schedule was discussed with Paul Aiken of your staff. If you have any questions on the revised schedule, please contact Vaughn Thomas or Tam Tran by telephone at 301-415-5897 or 301-415-3617 or via e-mail at Vaughn.Thomas@nrc.gov or Tam.Tran@nrc.gov.

Sincerely,

Signed by Regan, Christopher
on 04/05/23

Christopher Regan, Director
Division of Rulemaking, Environment,
and Financial Support,
Office of Nuclear Material Safety
and Safeguards

NORTH ANNA POWER STATION SUBSEQUENT LICENSE RENEWAL APPLICATION
REVISION OF SCHEDULE

Milestone	Scheduled
Site-specific environmental license renewal application supplement received by U.S. Nuclear Regulatory Commission (NRC)	9/28/22
NRC publishes availability of supplement <i>Federal Register</i> notice (FRN)	NA
NRC publishes notice of intent to prepare a supplemental environmental impact statement (SEIS) supplement and start of 30-day limited scoping period FRN	11/8/22
Limited scoping period ends	12/15/22
Conduct environmental audit	3/10/23
NRC issues environmental requests for additional information (RAI) and requests for confirmation of information (RCI), as needed	3/2023
NRC receives RAI/RCI responses	7/2023 5/2023
Issue Supplemental Safety Evaluation Report (SER)	10/2023
NRC publishes draft Supplemental Environmental Impact Statement (SEIS) supplement and FRNs to start 45-day comment period and 60-day period to request a hearing	10/2023
Draft SEIS supplement comment period ends	12/2023
Period to request a hearing end	12/2023
Publish final SEIS supplement and FRN	1/2024 5/2024
Environmental Protection Agency (EPA) Issues FRN – final SEIS supplement notice of availability and beginning of 30-day cooling off period	1/2024 5/2024
NRC issues FRN - renewed license/record of decision (assuming no comments during EPA cooling off period or per Commission direction, as appropriate)	3/2024 7/2024
