**SUBJECT: MAY 2, 2023, DECOMMISSIONING LESSONS LEARNED PUBLIC
MEETING WORKSHOP**

Dear Sirs:

On May 2, the Nuclear Regulatory Commission will be holding a public meeting to discuss Decommissioning Lessons Learned from the past and recent decommissioning projects. The objective of the meeting is to share good practices and lessons learned to improve the overall decommissioning process in transitioning from operations to decommissioning to license termination.

As a decommissioning project licensee, we encourage your participation and invite you to submit a presentation topic so NRC can include your companies' lessons learned in the agenda.

The May 2 meeting will be held from 10 am EST to 3 PM as an in-person meeting at NRC Headquarters in the One White Flint Commissioners Hearing Room. Virtual participation will also be possible. Details will be available on the NRC's Meeting Webpage.

CHOOSE SENSITIVITY FROM DROPDOWN MENU

For further information, please contact Mr. Bruce A. Watson, CHP, Special Assistant, in Division of Decommissioning, Uranium Recovery and Waste Programs at Bruce.watson@nrc.gov.

We look forward to your company's participation and contributions to the meeting. This is the first meeting dedicated to Decommissioning Lessons Learned in many years and we are hopeful that this may be the first of many meetings to improve the decommissioning process.

Sincerely,

Signed by Marshall, Jane
on 04/05/23

Jane E. Marshall, Director
Decommissioning, Uranium Recovery,
and Waste Programs
Office of Nuclear Material Safety,
and Safeguards
