

PROPOSED OUTLINE COMMENTS

Facility: CGS

First Exam Date: 2/20/23

Written Exam Outline	
Comment	Resolution
1 NRC Generated	

Administrative JPM Outline	
Comment	Resolution
1 A1 – bank from 2017 A1	None required
2 A2 – modified from 2015 A1 and 2009 A2	None required
3 A3 – change “hydro” to “LLRT” in description	Corrected
4 A5 – “Determine” should be lower case	Corrected
5 A7 – modified from 2017 A6	None required
6 A8 – bank from 2019 A8	None required

Control Room / In-Plant System JPM Outline	
Comment	Resolution
1 (E) designator is for in-plant’s only, thus S1, S2, and S6 should not carry this designator. (EN) designator is for simulator / control room only, thus P3 should not carry this designator	Corrected
2 S4 – bank from either 2009, 2013, 2015, 2017, or 2021	None required
3 S4- Remove “.” before (ALT)	Corrected
4 S5 – bank from 2021 S1	None required
5 S7 – this is modified from 2019 S2. That JPM was alt path, and was opposite transformers	Corrected - marked as Modified
6 S8 – modified from 2017 S4	None required
7 P2 – Seems reasonable, but is it fair to have a JPM asking the operator to perform tasks of the “Duty Electrician?” Do the R.O.’s train on this?	Corrected -modified
8 P3 – bank from 2017 P3	None required

Simulator Scenario Outline Comments	
Comment	Resolution
1 Not significantly varying power level on the scenarios. In the future, be more cognizant	None required
