To: **r4licensingactionssubmittals@nrc.gov** - Incorrect email address, so it was not received until licensee called to ask about it on 05/01/2023

To Whom It May Concern:

We are requesting an amendment to the above referenced NRC License .

We want to change item 10.4 of the application From

"We will provide and require the use of individual monitoring devices (dosimetry). All personnel dosimeters that require processing to determine the radiation dose will be processed and evaluated by a NVLAP-approved processor."

To Read

"We will maintain, for inspection by the NRC, documentation demonstrating that unmonitored individuals are not likely to receive a radiation dose in excess of the limits in 10 CFR 20.1502(a)."

I have attached NRC form 313 regarding that request. If you have questions about this request please contact me. Thank you.
