Subject: Comments on OMB Clearance

Russ,

Please see the email below and respond if you're interested. This is not a formal request to respond to the questions below. I'm passing this along in case you wish to respond.

Kim

The Nuclear Regulatory Commission recently published a [Federal Register Notice](#) announcing our intent to submit an information collection request to the Office of Management and Budget (OMB) for ***NRC Forms 366, 366A, and 366B, Licensee Event Report***. A supporting statement describing the requested information is available at <http://regulations.gov> by searching docket **NRC-2022-0169**.

As a potential respondent to this information collection, we are interested in your feedback. Specifically, we are seeking input on the following questions by **June 6, 2023**:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your response.
2. Is the burden estimate accurate? Please explain your response.
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

Comments can be submitted by going to <http://www.regulations.gov> and searching for Docket No. **NRC-2022-0169**. Please note that comments will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

If you have any questions regarding this correspondence, please contact Lisa Regner via email: Lisa.Regner@nrc.gov or telephone: 301-415-1906.
