LISLE, IL 60532-4352

May 2, 2023

Benny Tennyson, RSO  
Countrymark Refining and Logistics, LLC  
6701 Lower New Harmony Rd.  
Mt. Vernon, IN 47620

SUBJECT: AMENDMENT NO. 16 TO RADIOACTIVE MATERIALS LICENSE FOR  
COUNTRYMARK REFINING AND LOGISTICS, LLC, U.S. NRC MATERIALS  
LICENSE NO. 13-26261-01

Dear Mr. Tennyson:

Enclosed is Amendment No. 16 to your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-26261-01 in accordance with your request dated December 6, 2022, and subsequent additional or clarifying information received on February 6, 2023, February 27, 2023 and March 10, 2023.

Your license is amended to reflect removal of the Instruments, Inc., Division of National Tank Co., Model Y-1665 fixed gauging device.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, you may notify the U.S. NRC Region III office at (630) 829-9887 so that appropriate corrections and answers may be provided.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation; or imposition of a civil penalty; or an Order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance that NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture website at <https://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>.

I encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR §2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Jason M. Kelly, MPH  
Health Physicist  
Materials Licensing Branch
