Subject: response to our Request for Additional Information dated March 1
Date: Wednesday, May 3, 2023 12:50:00 PM

Ms. Morrissey,

We last spoke on April 18, when you called to update me on the progress of your response to our request for additional information. At the time, you stated that the response was nearly ready to be submitted. This email is to let you know that I need the response in order to complete the safety evaluation for the change of control. That safety evaluation will need to be reviewed for approval by our legal counsel after I have completed it.

Also, this is a reminder that the PerkinElmer license authorizing distribution to persons who will possess the electron capture devices under a general license, License No. 06-02135-12G, expires on June 30. 10 CFR 30.36(a) requires that an application for renewal be filed not less than 30 days prior to the expiration date of the existing license. Hopefully, someone is working on the renewal, which is independent of the change of control.

Thanks,
Betsy
