Subject: RE: RE: [EXTERNAL]Clean OL Pages for 50.69 LAR

Hi Steve,
This is the paragraph we plan on using in lieu of the requested inserts:

In addition, Constellation Energy Generation, LLC (CEG) is approved to implement 10 CFR 50.69 using the alternative seismic approach, as described in the licensee's letters dated December 15, 2021, and February 14, 2022, for categorization of RISC-1, RISC-2, RISC-3, and RISC-4 SSCs as specified in Unit [1(2)] License Amendment No. [###(###)] dated [DATE].

Please let me know if you'd like to discuss this.

If not, then please send me camera-ready pages. You may send the pages with Constellation's requested text so as to not appear that Constellation is withdrawing the request (I would then modify the pdf with the text above). If you send camera-ready pages the NRC's planned text above, it is with the understanding that your email would not be requesting a withdrawal of the DID and PB approaches.

Thanks,
Audrey

Hey Audrey – attached are our mark-ups and the word document insert for the LAR.

Do you need the actual camera ready pages? I can get them too you soon, but not as instant. Maybe mark-up the insert then I can use that to create the camera ready pages?

Thoughts?

EXTERNAL MAIL. Do not click links or open attachments from unknown senders or unexpected Email.

Hi Steve,
Do you have Word versions of the clean license pages for the 50.69 amendments? I assume you'd submit them as Constellation requested (with all 3 methods), then I'll send you an email showing how we plan on issuing them assuming the partial denial goes through.

Thanks,

Audrey Klett, Senior Project Manager
U.S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Division of Operating Reactor Licensing
Plant Licensing Branch 1
