PART I.D -- COMMENTS

Upon receipt of your request, this office tasked three program and regional offices that were reasonably expected to maintain any responsive records: The Office of Nuclear Material Safety and Standards (NMSS) and the Office of Investigations (OI) here in NRC's headquarters, and Region 1, which has geographic responsibility for the Pilgrim Nuclear Power Station.

Region 1 staff informed us that they identified one responsive record. This record is already publicly available in the Agencywide Documents Access Management System (ADAMS), which is NRC's official recordkeeping repository. You may locate this record, entitled "Holtec Decommissioning International, LLC, Pilgrim Nuclear Power Station - NRC Inspection Report No. 05000293/2022003," dated November 17, 2022, under accession number ML22322A195.

Records with an ML accession number are publicly available in the NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm.html>. If you need assistance in obtaining these records, please contact the NRC's Public Document Room (PDR) at 301-415-4737, or 1-800-397-4209, or by email to PDR.Resource@nrc.gov.

NMSS and OI staff reported that they located no responsive records.
