Here is some supplemental information for the prior comment regarding privacy as referenced here:

On May 22, 2007, OMB issued Memorandum M-07-16, Safeguarding Against and Responding to the Breach of Personally Identifiable Information, which required Federal agencies to publish a routine use for their systems of records specifically applying to the disclosure of information in connection with response and remedial efforts in the event of a breach of personally identifiable information. FWS published a notice in the Federal Register in 2008 to modify all FWS system of records by adding a routine use in their "ROUTINE USES" section to address the limited disclosure of records.
