SUPPLEMENTARY INFORMATION:

On May 19, 1988, the Nuclear Regulatory Commission issued a notice to all its employees announcing the reorganization of certain functions in the Office of Administration and Resources Management. The reorganization combines the Division of Contracts and the Division of Facilities and Operations Support into a new Division of Contracts and Property Management, and combines the Division of Publications Services and the Division of Rules and Records into a new Division of Freedom of Information and Publications Services. The Nuclear Regulatory Commission is amending portions of its regulations to substitute references to the Division of Rules and Records with the new Division of Freedom of Information and Publications Services

Because these are amendments dealing with agency practice and procedures, the notice and comment provisions of the Administrative Procedure Act do not apply pursuant to 5 U.S.C. 553 (b) (A). The amendments are effective upon publication in the Federal Register. Good cause exists to dispense with the usual 30-day delay in the effective date, because these amendments are of a minor and administrative nature, dealing with the agency's reorganization.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule contains no information collection requirements and therefore is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S. C. 3501 et seq.).
