Kansas City, MO 64114

SUBJECT: LETTER DATED APRIL 17, 2023, REGARDING THE SCHEDULE FOR THE
REVIEW AND ISSUANCE OF A LICENSE AMENDMENT APPROVING
FACILITY DECOMMISSIONING PLAN (DP) – REV 3

Dear Bill Halliburton:

This responds to your letter dated April 17, 2023, (Agency wide Documents Access Management System (ADAMS) Accession No. (ML23108A037)) regarding your concerns the schedule for the review and issuance of a license amendment approving Facility Decommissioning Plan – Rev 3 (the DP), provided in the acceptance letter for detailed technical review of the DP-Rev.3, dated March 30, 2023.

In your letter you requested that the U.S. Nuclear Regulatory Commission (NRC) management encourage NRC staff to re-evaluate the most recent schedule and fast-track the issuing of a license amendment. As a beneficiary of the Cimarron Trust, we share your concern that it is in the best interest of the use of the funds from the Trust that we make the review and processing of the license amendment process as efficient as possible. I have encouraged the NRC staff to focus on the amendment request and complete the review as quickly as possible, while still maintaining a focus on safety in reviewing the technical merit of the application.

As you have pointed out that major portions of this application, for Rev.3 of the DP amendment, have been reviewed previously by the NRC staff; therefore, we are also hopeful that many of the issues identified in the past through various multiple requests for additional information (RAIs), comments provided as part of the pre-application audit, requests for supplemental information (RSIs) developed over the two previous revision attempts and the pre-application audit have been addressed in the body and details of the application.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning this letter, please contact me or the Project Manager for you license, James Smith at 301-415-6103 or via email at James.smith@nrc.gov.

Sincerely,

Signed by Marshall, Jane
on 06/01/23

Jane Marshall, Director
Division of Decommissioning, Uranium
Recovery and Waste Programs
Office of Nuclear Material Safety
