PETITION RULE PRM 30-55

State of New Jersey

DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF ENVIRONMENTAL QUALITY
BUREAU OF RADIATION PROTECTION
380 SCOTCH ROAD, TRENTON, N. J. 08628

May 13, 1986

Mr. Samuel J. Chilk
Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chilk:

This is in response to the communications from Mr. Richard P. Grill, Waste Management Branch, Division of Radiation Programs and Earth Sciences, Office of Nuclear Regulatory Research, regarding the petition (PRM-30-55) filed by the New Jersey State Department of Environmental Protection.

After reviewing the original justification for the petition to NRC and the current status of the major by-product facility that was the basis for the petition, we are of the opinion that the situation which previously existed already has been resolved. Also, the proposed revisions to 10 CFR 20 would address some of the more general concerns of the petition. Therefore, the State of New Jersey is no longer interested in pursuing this matter and hereby withdraws the petition.

Sincerely,

Gerald P. Nicholls

Gerald P. Nicholls, Ph.D.
Acting Chief

cab
cc Mr. John Feeney
