SUBJECT: REQUEST FOR ADDITIONAL INFORMATION FOR THE TECHNICAL REVIEW
OF THE APPLICATION FOR RENEWAL OF THE DIABLO CANYON
INDEPENDENT SPENT FUEL STORAGE INSTALLATION (CAC/EPID NOS.
001028/L-2022-RNW-0007)

Dear Maureen Zawalick:

By letter dated March 9, 2022, Pacific Gas & Electric Company (PG&E) submitted an application for renewal of License No. SNM-2511 for the Diablo Canyon Independent Spent Fuel Storage Installation (ISFSI) (Agencywide Documents Access and Management System (ADAMS) Accession No. ML22068A189). By letter dated September 8, 2022, the Nuclear Regulatory Commission (NRC) staff acknowledged acceptance of your application for a detailed technical review and provided a proposed schedule for its review (ML22238A239). This letter is intended to update the schedule and to request additional information.

Due to a reallocation of resources, Nuclear Regulatory Commission (NRC) staff plan to issue a comprehensive request for additional information (RAI) in October 2023. However, the staff have available a portion of the RAIs, which can be found in the attached enclosure. We request that you provide this information by September 29, 2023. Inform us at your earliest convenience, but no later than September 13, 2023, if you are not able to provide the information by that date. To assist us in rescheduling your review, you should include a new proposed submittal date and the reasons for the delay. For the comprehensive RAI, we plan to request responses in January 2024. Provided the RAI responses are adequate and received in the timeframe noted above, NRC now plans to complete the technical review process for the ISFSI in August 2024.

Please reference Docket No. 72-26 and CAC/EPID No. 001028/L-2022-RNW-0007 in future correspondence related to this request. The NRC staff is available to clarify these questions, and if necessary, to meet and discuss your proposed responses. If you have any questions

M. Zawalick
