Subject: Renewal Application - RAI

Discussion:

I left messages with Mssrs. Morgan and Blake that there were some issues that needed answers regarding their renewal application. I spoke with Mr. Morgan regarding the renewal application of AOC Materials, LLC submitted by Zachary Tyler Morgan, Plant Manager. I explained to Mr. Morgan that there were two ways to provide the requested information: (1) Resubmit the documents after correcting or clarifying provided information (incorrect license number in document, outdated license condition references, clarify whether or not only the RSO is to use/tag out devices, statements regarding environmental conditions around gauges and unmonitored individuals, and the procedures used to tag out devices and allow entry into the closed vessel); or (2) complete Appendix B of NUREG-1556, Volume 4, Revision 1 and submit the tag out procedures. Mr. Morgan stated that they would prefer to use the second option and would have Mr. Blake contact me if he required any assistance.

Action Required: Mr. Morgan indicated that he would prefer to submit Appendix B and the tag out procedures rather than rework the original package.
