Director, Division of Spent Fuel Management
Office of Nuclear Materials Safety & Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Attention: Document Control Desk

Subject: Changed Pages and General Arrangement Drawings for Revision 11 of the RAJ-II Safety Analysis Report

As requested by NRC staff in Reference 1, this letter transmits, in Enclosure 1, the RAJ-II package general arrangement drawings as identified in Section 1.3.1.1 of Revision 11 of the RAJ-II Safety Analysis Report (SAR), NEDE-33869P. This letter also transmits, in Enclosure 2, changed pages to Revision 11 of the RAJ-II SAR, NEDE-33869P to reflect clarifications requested by the NRC staff.

Please note that Enclosures 1 and 2 contain proprietary information of the type that Global Nuclear Fuel – Americas (GNF-A) maintains in confidence and withholds from public disclosure. The affidavit contained within Enclosure 5 identifies that the designated information in Enclosures 1 and 2 has been handled and classified as proprietary to GNF-A. GNF-A hereby requests that the information in Enclosures 1 and 2 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17. Enclosure 3 is the non-proprietary version of Enclosure 2. Enclosure 4 contains an updated list of the SAR revisions to include the revisions to SAR Sections 1.2.2 and 4.5.1.1.

Enclosure 1 contains RAJ-II package general arrangement drawings which are deemed proprietary in their entirety. Thus, a non-proprietary version of this enclosure has not been provided in accordance with NRC Information Notice 2009-07, Requirements for Submittals, (2), which states: “In instances in which a nonproprietary version would be of no value to the public because of the extent of the proprietary information, the agency does not expect a nonproprietary version to be submitted.”
