LISLE, ILLINOIS 60532-4352

June 14, 2023

Eric L. Mollon
Radiation Safety Officer
Ionetix Corporation
3130 Sovereign Dr.
Lansing, MI 48911

Dear Eric L. Mollon:

It has come to our attention that Amendment No. 12 to your NRC Material License No. 04-35412-01, issued on June 13, 2023, contained errors.

We accidentally processed your letter dated June 7, 2023, (ML23163A037) into this license when it should have been processed into 04-35412-02 at a different location.

We have removed the June 7, 2023, letter from Amendment No. 12 and a corrected copy reflecting these changes is enclosed.

We apologize for these errors and for any inconvenience they may have caused.

To help prevent a recurrence of this issue, we suggest using the NRC Form 313 at <https://www.nrc.gov/docs/ML1836/ML18360A427.pdf> to capture more comprehensive identifying information for your licensing correspondence.

This should also help to clearly differentiate between your licenses.

Please review the enclosed document carefully and be sure that you understand all conditions.

If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You may also contact me at (630) 829-9841. My fax number is (630) 515-1078 and my email address is colleen.casey@nrc.gov. The most reliable way to contact me is via email as I am teleworking about half the time.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

E. Mollon

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Colleen Carol Casey
Health Physicist
