

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 26, 2023

LICENSEE: Virginia Electric and Power Company

FACILITIES: North Anna Power Station, Unit Nos. 1 and 2
Surry Power Station, Unit Nos. 1 and 2

SUBJECT: SUMMARY OF MAY 25, 2023, PUBLIC MEETING WITH VIRGINIA ELECTRIC AND POWER COMPANY CONCERNING A LICENSE AMENDMENT REQUEST TO REVISE EMERGENCY PLAN STAFF AUGMENTATION TIMES (EPID L-2022-LLA-0166)

On May 25, 2023, a public observation public meeting¹ was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Virginia Electric and Power Company (the licensee, VEPCO) via video conference. The purpose of the public meeting was to discuss the license amendment request² (LAR) for North Anna Power Station, Unit Nos. 1 and 2 (NAPS), and Surry Power Station, Unit Nos. 1 and 2 (Surry), that would revise Emergency Plan staff augmentation times. Specifically, the meeting was to discuss a licensee response to NRC staff questions that VEPCO submitted³ on March 30, 2023.

The NRC and licensee discussed RAI 1 concerning how the selected functions would be accomplished between 60 and 90 minutes. The licensee indicated that some of the functions could potentially be accomplished using onsite FLEX equipment.

The NRC staff and licensee also discussed RAI 2 regarding the ability to perform in-person field measurements with the proposed staffing levels. The licensee discussed the capability of installed monitoring equipment and suggested a procedural analysis study to demonstrate the functions to be accomplished. The NRC staff suggested further engagement may be warranted to reconcile NRC questions concerning the approach. Additionally, the NRC staff identified that RIS 2016-10⁴ could provide additional guidance in this area.

Following the discussion, it was suggested that a regulatory audit may be useful in furthering the review. Both the NRC and licensee staff indicated that they would consider usage of the audit process.

1 The meeting notice and agenda are available in the ADAMS under Accession No. ML23131A109.

2 The License Amendment Request (LAR) dated November 7, 2022 is available in the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML22312A550.

3 The supplemental information dated March 30, 2023 is available in ADAMS under Accession No. ML23089A354.

4 RIS 2016-10 is available in ADAMS under Accession No. ML16124A002.

No regulatory decisions were made during the meeting.

A list of attendees is provided as an enclosure. No public questions or comments were received.

Please direct any inquiries regarding this meeting to Ed Miller at 301-415-2481 or Ed.Miller@nrc.gov.

Sincerely,

/RA/

G. Edward Miller, Project Manager
Plant Licensing Branch II-1
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
