Matthew Hall, RSO:

The attached amendment request letter dated June 16, 2023, requests in item 3 the removal of Iodine-125 permitted by 10 CFR 35.400, removal of Palladium-103 permitted by 10 CFR 35.400, and removal of any byproduct material permitted by 10 CFR 31.11. Please provide the following information to complete the amendment request.

1. Disposal records for all I-125, Pd-103 and 31.11 material, and most recent leak test results and/or wipe test results for all the I-125, Pd-103 and 31.11 material.
2. Written documentation demonstrating that there are no longer any I-125, Pd-103 and 31.11 material in the location identified in condition 10 of NRC license 40-01683-01.

Thank you for your cooperation.

RE: Amendment Request to RAM License #40-01683-01

Dear Licensing Reviewer,

Please amend our Radioactive Materials License #40-01683-01 with the following changes:

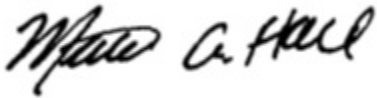

1. Please remove the following Authorized Users from our license:
 - a. David Peterson, M.D
 - b. Ralph James Tullo, M.D
2. Please add Timothy Mikesell, MD as an Authorized Users for the following uses:
 - a. 10 CFR 35.100 – uptake dilution, and excretion studies
 - b. 10 CFR 35.200 – imaging and localization studies

Attachment A – Dr. Mikesell is a currently listed AU for both uses on RAML #IL-01409-01

3. Please remove the following modalities from our license, as they are no longer active programs. Additionally, the license has no intent to restart these programs.
 - a. Item D – Iodine-125 permitted by 10 CFR 35.400
 - b. Item E – Palladium-103 permitted by 10 CFR 35.400
 - c. Item F – Any byproduct material permitted by 10 CFR 31.11
4. We request our fee schedule be adjusted to account for the authorized use category which applies.

If you have questions or need additional information, please contact me directly.

Respectfully submitted,

Matthew Hall, MS
Radiological Physicist
Radiation Safety Officer
