Subject: GEHA and GNF-A Application for Indirect Transfer of Control – Revision 2

References: 1) Application for Order Consenting to Indirect Transfer of Control with Respect to Reactor Licenses, Material Licenses and Export Licenses, and Notification Regarding Other Approvals, dated May 30, 2023
2) GEHA and GNF-A Application for Indirect Transfer of Control – Revision 1, dated June 20, 2023

Additional typographical errors have been identified in the May 30, 2023, Application for Order Consenting to Indirect Transfer of Control with Respect to Reactor Licenses, Material Licenses and Export Licenses, and Notification Regarding Other Approvals (“Application”) (Reference 1). The Application incorrectly identified the NRC Docket number for Export License XSNM03135, the holder of Export License XCOM1124, numbering of Export License XSNM3785 and numbering of XSNM3066.

To correct these errors, replacement pages are provided as Revision 2 to the Application. These replacement pages provide the corrected information for each license. The changes made to these pages are indicated in red change boxes for ease of identification. A change table describing each change and the reason for the change is provided as Attachment 1. The replacement pages constituting Revision 2 to the Application are provided in Attachment 2.

Also, in response to the NRC’s request dated June 21, 2023, a copy of the GE Vernova LLC Certificate of Formation is provided in Attachment 3.

If you have any questions regarding this matter, please contact me at (910) 819-5950.

Sincerely,

Scott Murray, Manager
