Subject: request for additional information needed to amend your NRC license
Date: Monday, June 26, 2023 2:42:00 PM

Mr. St. Pierre,

In order to amend your license, I need the following additional information:

1. You requested that we update the sealed sources information based on the NJDEP license for your gauges. Please explain what you wish to have updated. We write our licenses differently than does NJDEP. Are you only asking to have Humboldt gauges added to the NRC license, or are there changes needed to the Troxler gauge information? Or is there something else that I am not understanding is needed?
2. For the proposed Radiation Safety Officer:
 - a. In addition to the training certificate, please provide a description of the individual's experience in using portable gauges, and any experience performing the duties of an RSO for a portable gauge license.
 - b. Please provide contact information; an email address and telephone number would be most helpful.

Thank you for your attention in this matter,

Betsy Ullrich, Senior Health Physicist
USNRC Region I
Division of Radiological Safety and Security
475 Allendale Road – Suite 102
King of Prussia, PA 19406
