Subject: Request additional information for NRC Materials License No. SUB-1589
Date: Friday, April 21, 2023 8:57:00 AM

Dear Mr. Summers:

This refers to the license termination application for RadParts.com, NRC Materials License No. SUB-1589. We reviewed the application and will need the following.

- Provide a copy of the results of your close-out survey. The survey should consist of exposure rate measurements to show that all sources of radioactive material have been removed, and contamination checks of areas where radioactive materials were used or stored. The survey should also include name of the person performing the survey, date of the survey, radiation survey instrument (manufacturer and model number) with date of the last calibration, background radiation readings, and a diagram of your old facilities with survey and wipe test results keyed to specific locations.

To continue the review of your application, we request that you submit your response under a dated and signed cover letter by May 22, 2023. In the cover letter, please reference the license number and Mail Control No. 635249. If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Best regards,

Frank Tran
