March 22, 2023

Wayne Dolaman, Plant Manager
Ohio County Coal Resources, Inc.
46226 National Road
St. Clairsville, OH 43950

SUBJECT: OHIO COUNTY COAL RESOURCES, INC., LICENSE AMENDMENT, MAIL
CONTROL NO. 634866

Dear Wayne Dolaman:

This refers to your license amendment request dated March 8, 2023, and received by the NRC electronically on March 17, 2023. Please find enclosed Amendment No. 7 authorizing Mr. Ernest Sickles as the Radiation Safety Officer (RSO). This amendment was issued following Ohio County Coal Resources, Inc. identifying on or around January 2023 that the license had not been updated following the departure of the prior RSO in July 2021. The NRC independently identified this issue through independent inquiries on March 16, 2023. This issue was reviewed as it concerned compliance with the terms and conditions of your license, the results of which will be communicated to you in a separate correspondence.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at (610) 337-5256 or via electronic mail at Jason.vonEhr@nrc.gov so that appropriate corrections or answers can be provided.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at:
<http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Jason vonEhr, Health Physicist
Commercial, Industrial, R&D
and Academic Branch
