RE: Request to amend license number 24-18287-01 for the addition of a new PET imaging suite. Control Number 635311

Mr. Kelly,

Regarding our most recent telephone conversation, please note that the physician office located inside the PET imaging suite will be used as a physician reading room. Also, to note, our facility will implement a temporary administrative control on the hallways surrounding the PET imaging suite to limit staff exposure to non-radiation works. Administrative control measures would be primarily for day-to-day operations and may exclude use of the corridors during emergency procedures. At some point, our facility may elect to utilize area monitoring devices to determine exposures in the hallways. I will work to set up a time and date for you to speak with our physicist regarding these matters. Thanks again for the telephone conversation and have a great 4<sup>th</sup> of July Holiday.

Sincerely,

Jack L. Bridges, MD  
RSO Mosaic Life Care
