Re: New Jersey State Radioactive Materials License - Amendment
Colliers Engineering & Design, Inc.
Program Interest No.: 507509
License No.: 507509 - RAD190001

Dear Mr. Lorson and Mr. Ragland:

Please be advised that we have moved and our new headquarters/license owner address is:
101 Crawfords Corner Road, Suite 3400, Holmdel, New Jersey 07733. Additionally, our former nuclear gauge storage facility located at 331 Newman Springs Road, Building 4, Red Bank, New Jersey, 07701, is no longer being utilized. Our new storage facility is currently under construction, and is located at 1433 Route 34, Wall Township, Monmouth County, New Jersey, however, it will not be ready until approximately early August, 2023.

Our nuclear gauges that are currently not being used in the field have either been temporarily relocated to our Mays Landing Office, 5439 Harding Highway, Mays Landing, New Jersey 08330, or relocated for permanent location at another out-of-state NRC approved storage facility until our new storage facility is fully operational. We plan on providing a new storage facility plan and a revised list of gauges to be stored at the new facility for approval.

If you have any questions or concerns, please contact me at telephone number, 732-704-5401, or email address james.serpico@collierseng.com.

Sincerely,

Colliers Engineering & Design, Inc.
