MATERIALS LICENSING BRANCH  
U.S. NUCLEAR REGULATORY COMMISSION, REGION III  
2443 Warrenville Road Suite 210  
Lisle, IL. 60532-4352

Licensee: BluePearl Michigan, LLC; Materials License #21-32607-01 / Control #636098  
Address: 29080 Inkster Road, Southfield, MI 48034  
Subject: **Response to your Request for Additional Information**

Dear Mr. Tran,

This letter is in response to your e-mail request on July 7, 2023 in which you request additional information to approve the amendment to change the Radiation Safety Officer (RSO) for the materials license referenced above. The following responses numerically correspond to your request for information as presented in your e-mail communication:

1. Ms. Moori was named the RSO for the Veterans Affairs hospitals in Chicago (broadscope), however, that contract has ended. Ms. Moori is currently supporting the Radiation Safety Program at Cook County Hospital (Radioactive Materials License #IL-01768-01) with a pending license amendment to be named as RSO. Additionally, Ms. Moori has been named as the RSO for the BluePearl veterinary hospital in Northfield, IL with a pending license amendment. Ms. Moori is committed to appropriately managing her time as RSO and other work assignments, including supporting our program. Ms. Moori shall dedicate at least 2 hours each quarter for on-site support, which will include the performance of a comprehensive Radiation Safety Program audit. Upon request, Ms. Moori is able to provide additional on-site visits to attend to any unusual situations which may arise. In addition, Ms. Moori is always available by phone and email for technical support. Should Ms. Moori be unavailable, due to time-off or illness, West Physics has other RSO-qualified Medical and Health physicists in the region who can, and will, fill-in for her during these times.
2. During her absence, the in-house representative shall be:  
  
Marc Elie, DVM  
Email: [Marc.El@bluepearlvet.com](mailto:Marc.El@bluepearlvet.com)  
Phone: (248) 354-6640
3. As noted above, Ms. Moori is available to provide support to our Radiation Safety Program remotely (telephonic and e-mail communications) allowing adequate time to respond to questions or operational issues. In addition, West Physics offers a variety of technical and staffing resources should additional support be needed.

4. In the event of an emergency requiring on-site support, Ms. Moori shall instruct site staff regarding immediate actions to be taken as well as provide guidance relevant to the situation. Ms. Moori will be able to arrive on-site within 12-24 hours. Further, West Physics has other RSO-qualified Medical and Health Physicists in the region that can provide support and guidance, as well possibly arrive on site prior to Ms. Moori.

If you need any additional information in order to process this licensing action, please do not hesitate to contact [remoteservices@westphysics.com](mailto:remoteservices@westphysics.com).

We look forward to your approval of this amendment request.

Sincerely,

A handwritten signature in cursive script, appearing to read "Nicholas R. Nelson".

Nicholas R. Nelson  
President
