Kalamazoo, MI 49009

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR WALLACE & ASSOCIATES, LLC, NRC LICENSE NO. 21-32557-01

Dear Ms. Wallace:

In NRC Form 314 "Certificate of Disposition of Materials" dated May 18, 2023, notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-32557-01. Your letter is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML23138A172.

An environmental assessment for this action is not required because this action is categorically excluded under [Title 10 of the Code of Federal Regulations \(CFR\) Section 51.22\(c\)](#).

The request identified that all licensed radioactive materials have been appropriately transferred. Documentation of the transfer/disposal of radioactive materials, including associated leak test reports were reviewed. Based on this review, it appears that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current U.S. NRC criteria.

Based on this conclusion, no further remediation or actions are required with respect to U.S. NRC-regulated material. Your facility is suitable for release to unrestricted use, and U.S. NRC Materials License No. 21-32557-01 is hereby terminated.

In accordance with [10 CFR §2.390](#) of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC website at: <https://www.nrc.gov/reading-rm/adams.html>.

If you have questions, please contact me at (630) 829-9737 or Jason.Kelly@nrc.gov.

Sincerely,

Jason M. Kelly, MPH
