Subject: Request for Additional Information

### Discussion:

I received a phone message from Craig Atkins on 07/11/2023. I returned his call at approximately 03:17 PM. Craig Atkins informed me that Bionomics contacted him on 07/11/2023 regarding the disposal of his sources. He related that Bionomics would be able to dispose of RMS' Cs-137 sources and would store RMS' Am-241 sources until they could be picked up for disposal through the National Nuclear Security Administration's (NNSA) Office of Global Material Security, Off-Site Recovery Program (OSRP). Craig Atkins indicated that he would be taking photos and measurements of the sources and would remain in contact with Bionomics until disposal could be arranged. I requested that he update the NRC when a disposal date was scheduled.

### Action Required:

The licensee will provide notification of disposal and request termination following removal of the sources.
