**Subject:** Request additional information for NRC Materials License No. 13-02841-04  
**Date:** Thursday, June 1, 2023 2:42:00 PM

---

Dear Michael Schall,

This refers to the license amendment request application for Dalton Corporation, NRC Materials License No. 13-02841-04. Specifically, you request to name a new Radiation Safety Officer (RSO) for the license. We reviewed the application in accordance with the licensing guidance in NUREG-1556, Volume 4, Revision 1. An electronic copy of the guidance can be downloaded from the NRC's website at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v4/index.html>. Based on the review, we will need the following.

1. Provide the contents of the training courses.
2. Provide information that the proposed RSO has been trained in fixed gauge operating, emergency, and security procedures, routine versus nonroutine maintenance, and lock-out procedures; and hands-on training in operating procedures, test run of emergency procedures, routine maintenance, and lock out procedures. In addition, provide the amount of time for completing the practical training above and name of qualified individuals (RSO, etc.) who provided the training.

To continue the review of your application, we request that you submit your response under a dated and signed cover letter by June 30, 2023. In the cover letter, please reference the license number and Mail Control No. 635533. We will assume that you do not wish to further pursue this licensing action if we do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Best regards,

*Frank Tran*
