Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TECHNICAL SPECIFICATIONS TASK FORCE -596, REVISION 0, "EXPAND THE APPLICABILITY OF THE SURVEILLANCE FREQUENCY CONTROL PROGRAM" (EPID: L-2023-PMP-0002)

Dear Members of the Technical Specifications Task Force:

By letter dated May 12, 2023 (Agencywide Documents Access and Management System (Accession No. ML23132A139), you submitted a request to the U.S. Nuclear Regulatory Commission (NRC) to incorporate Traveler Technical Specifications Task Force-596, Revision 0, "Expand the Applicability of the Surveillance Frequency Control Program (SFCP)," into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 650 staff hours including project management time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	October 10, 2023
Issue Draft Safety Evaluation	July 5, 2024
Issue Final Safety Evaluation	November 4, 2024

If you have any questions, please contact me at (301) 415-1774 or via email to [Michelle.Honcharik@nrc.gov](mailto:Michelle.Honcharik@nrc.gov).

Sincerely,

**/RA/**
