SUBJECT: HONEYWELL METROPOLIS WORKS – INTEGRATED INSPECTION REPORT  
04003392/2023002

Dear Mr. Hunt:

This letter refers to the Nuclear Regulatory Commission (NRC) inspection oversight activities conducted from April 1 to June 30, 2023, for the Honeywell Metropolis Works facility in Metropolis, IL. During that time, the NRC did not conduct any core inspection activities on-site as detailed in the 2023 inspection schedule letter (ML22187A190). Although there were no scheduled core inspections in the second quarter of calendar year 2023, inspectors continued to conduct supplemental reviews of licensee-submitted reports (e.g., effluent reports, plant modification reports, and changes to the Integrated Safety Analysis Summary) and increased communications with your staff to discuss the status of plant operations. A Special Inspection was conducted on June 28-29, 2023, in response to event notice 56586, however, the results of that inspection will be detailed in inspection report number 40-3392/2023-006 which will be issued by August 13, 2023.

No violations of more than minor significance were identified during this inspection.

This letter, its enclosure, and your response (if any) will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with Title 10 of the *Code of Federal Regulations* 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Sincerely,

A handwritten signature in blue ink, appearing to read "Eric C. Michel".
