Mr. Scott Moser
Training Manager
Duke Energy Carolinas, LLC
McGuire Nuclear Station
12700 Hagers Ferry Road
Huntersville, NC 28078-8985

SUBJECT: WILLIAM B. MCGUIRE NUCLEAR STATION – OPERATOR LICENSING
WRITTEN EXAMINATION APPROVAL 05000369/2023301 AND
05000370/2023301

Dear Mr. Moser:

The purpose of this letter is to provide U.S. Nuclear Regulatory Commission (NRC) approval of the proposed written examination and operating test under Title 10 of the *Code of Federal Regulations* (10 CFR) 55.40(b)(4) and to confirm the final arrangements for the upcoming operator licensing examination at Williams B. McGuire Nuclear Station, Units 1 and 2.

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examinations, and you may administer the written examination in accordance with Revision 12 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of August 14, 2023. The NRC staff will administer the operating tests during the weeks of July 31, 2023 and August 7, 2023. The list of the applicants approved to take the examination has been provided to your office.

The examinations have undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examinations meet the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (404) 997-4703.

Please contact your Chief Examiner, Mark Bates at (404) 997-4612 if you have any questions or identify any errors or changes in license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination or operating test, or both) specified for each applicant approved to take the examination.

Sincerely,

/RA/

Daniel M. Bacon, Chief
Engineering Branch 2
Division of Reactor Safety
